International Seminar of Student Organizations

The seminar is an interdisciplinary event whose purpose is to share the achievements of scientific organizations active at domestic and foreign universities.

We hope that scientific presentations combined with a picturesque scenery of the university campus, Kortowo, and Olsztyn itself will provide unforgettable memories and creative inspirations.

Discussion panels will be held in the following areas:

1. development and environmental protection
2. biological science
3. geodetic science
4. mathematical and computer sciences
5. medical sciences
6. sciences of food
7. pedagogical sciences
8. political sciences
9. sciences of law
10. social sciences
11. technical sciences
12. veterinary sciences
13. zootechnical sciences and livestock production
14. plant production
15. art
